

Fiber Splicer (Full-Time Position)

Marquette-Adams Telephone Cooperative, Inc. - Oxford, WI

Marquette-Adams Telephone Cooperative, Inc. is an innovative, high-energy telecommunications cooperative located in Oxford, WI. We provide an all-fiber network supporting Internet solutions, as well as television and telephone services to more than 6,000 residential and business customers throughout Marquette and Adams counties. We are committed to empowering our employees to best serve our subscribers.

Position Summary:

The Fiber Splicer plays a critical role in the continued success of our organization as we maintain consistent growth and expansion. You will be required to work on various projects installing and/or repairing fiber-optic cable.

No overnight travel required for this position.

Essential Job Functions:

- Splice fiber cables and cut terminals for new construction
- Maintain and repair new cable plant fiber-optic lines by opening and bonding fiber lines and fibers
- Maintain cable system by testing to locate trouble, open cable to repair or replace defective sections, and then close and seal the tube
- Identify, count, and prepare groups of fiber for splicing
- Add new lines of service as requested by subscriber
- Splice cable to protector devices and central office distribution frame
- Splice customer drop cable
- Perform tasks associated with the electronic upgrade and splicing of cable
- Test, activate, and troubleshoot equipment after installation
- Self-supervise all operations to ensure that all splicing operations are completed in accordance with customer and industry specifications
- Complete daily production reports, mark-up maps, keep track of work hours, and track daily production
- Frequently work independently
- Perform general clean up
- Provide accurate daily timekeeping
- Other splicing related duties as assigned
- Perform all other related duties as assigned by management

Qualifications:

- Must have a high school diploma or equivalent
- 1 year of previous experience of fiber optic and/or copper cable splicing preferred
- Knowledge of fiber optic color code and skills in reading cable schematics, fiber count reports and verification reports
- Ability to splice fiber optic cable utilizing fusion splicer
- Ability to test and troubleshoot fiber optic cable utilizing OTDR, light source, and power meter.
- Must be able to read and build from blueprints and/or wire diagrams
- Have knowledge of telecommunications network structure

April 25, 2022

- Possess a valid driver's license or be eligible and willing to obtain the required license for the position
- Class A CDL is a plus
- Must maintain a current DOT health certificate
- Ability to work in emergencies at night and weekends if needed
- Ability to be on an on-call rotation

Physical Requirements:

- Must be able to lift/carry 50 lbs. regularly and up to 100 lbs. as needed with or without assistance
- Must be able to work in all weather conditions

Compensation and Benefits:

- Competitive salary
- Generous benefits package, including medical, dental, vision, pension & 401K program
- Paid time off
- Company paid holidays
