2024 in Review

What a Year to Remember!

In 2024, we saw significant growth, with more than 10% expansion in our internet customer base alone. We're excited about the future and look forward to continuing that growth in the coming year. We also successfully wrapped up multiple grants, which have been key to our expansion into new areas.

This year marked some bittersweet transitions within our team. In April, we said goodbye to Jodi as she retired. Lori Lynn Podoll's upcoming retirement in February 2025 is another change on the horizon, and we wish her all the best. Jacob Van De Voort and Shay Jilek also moved on to new adventures, and we wish them success in their future endeavors.

Despite these goodbyes, we were thrilled to welcome new members to our family! Crystal Nawrot has joined us in Payroll/HR and will be stepping into Lori Lynn's role when she retires. Dylan Larson has taken on the role of Marketing Coordinator, succeeding Shay. We are excited for the contributions they will bring to our team.

In 2024, we introduced Workshop Wednesday, a series of tech classes designed for anyone interested in learning more about technology. If you have ideas for topics you'd like to see covered, don't hesitate to reach

out. We're committed to helping our customers better understand their tech and improve their everyday lives.

We also had a blast at our Employee Wellness Event, which took place at Asgard Axe Throwing, where we shared food, fun, and camaraderie. Our Annual Movie in the Park event was another highlight, with a fantastic turnout for a screening of The Garfield Movie. In October, as part of National Co-op Month, we held drawings, giveaways, and served free food for our customers as a way to show our appreciation.

We were thrilled to welcome students from Oxford Elementary to walk through our Halloween-decorated halls and trick-or-treat with our staff. They also enjoyed decorating our Christmas tree in the front office, which added a festive touch to the season.

2024 has been a year full of memories we'll never forget, and we can't wait to see what 2025 brings. Thank you to our team and customers for making it all possible!

We're back in the swing of our Workshop Wednesday Classes!

If you haven't been able to attend our first two sessions, don't worry, there are plenty more classes coming up in the future. Formerly known as Tech Tuesday, each class will focus on a different tech topic. To learn about upcoming classes, register or suggest a future topic to be sure to check out our website for more details. <https://www.MarquetteAdams.com/workshop-wednesdays-schedule>.

Apply for Our Scholarship

\$12,000 in Scholarships Available for 2025!
