Brakebush Brothers Celebrating A Century in Business

(Brakebush) - Brakebush Brothers family business is celebrating their 100 year anniversary in 2025.

Brakebush was founded in 1925 by William and Otto Brakebush. Over the years, the company has evolved from livestock delivery and egg candling into a technology driven poultry processing plant. Through it all, the Brakebush family has kept the same ideals: provide the highest quality product at a fair price and back it with the finest service.

The success Brakebush has seen by providing further processed, cooked chicken allowed them to expand into the portioning business. In 2013, Brakebush acquired a state of the art portioning facility in Irving, Texas. In the spring of 2016, Brakebush acquired an additional processing facility in Wells, MN. and another in Mocksville, NC in 2019. In 2024, Brakebush acquired a second raw portioning facility in Hartwell, GA.

Today, Brakebush continues to focus on providing the highest quality chicken products to meet the needs of their customers. From portioning and sizing of raw product in Irving, to fully cooking and par frying in Wells and Westfield, Brakebush is prepared to provide chicken for generations to come. The Westfield facility serves as the corporate office as well as the largest production facility. Brakebush employs nearly 2,000 people company wide with approximately 1,100 located in Westfield. Brakebush operates a variety of work shifts, resulting in employees being on-site 24/7/365.
